

XRCGB25M000F3M00R0

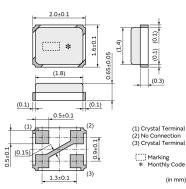

In Production RoHS REACH

### Applications

| 11 26 11                 |  |
|--------------------------|--|
| Unsuitable               | Please be sure to read and comply with     |
| Applications             | these "Precautions for use."               |
|                          | Consumer equipment,Industrial              |
|                          | equipment except for transportation &      |
|                          | facility & energy equipment, Medical       |
|                          | equipment [GHTF A/B],Mobile                |
|                          | Electronics                                |
| Chaoifia                 | Please refer to Our Website and            |
| Specific<br>Applications | specifications, etc. for information about |
| Applications             | the performance, functions, quality,       |
|                          | management, and safety required for        |
|                          | the above applications, and use            |
|                          | Products after confirming the              |
|                          | performance and reliability of the actual  |
|                          | Product.                                   |

### Appearance & Shape

Note: If you have not downloaded this document from our official website, please note that the information provided may not be the most current.

Please download the latest datasheet of XRCGB25M000F3M00R0 from the official website of Murata

## Packaging Information

| Packaging | Specifications     | Standard<br>Packing<br>Quantity |
|-----------|--------------------|---------------------------------|
| R0        | 180mm Plastic Tape | 3000                            |

The crystal unit that realized small package and highly accurate frequency.

Based on Murata's excellent package technology and high grade quartz crystal elements, achieving small size and high accuracy resonators.

#### Features

1. The series is available in the applications to be necessary for high accuracy resonator. Especially, it is the best for the communication clocks such as S-ATA ul USB2.0.

2. The resonator is extremerly small size  $(2.0 \times 1.6 \times 0.7 \text{ (mm)})$ , and contribute to reduction in mounting area.

3. The series complies to RoHS directive, being lead-free (phase 3).

#### Attention

1. This datasheet is downloaded from the website of Murata Manufacturing Co., Ltd. Therefore, it's specifications are subject to change or our products in it may be discontinued

without advance notice. Please check with our sales representatives or product engineers before ordering.

2. This datasheet has only typical specifications because there is no space for detailed specifications.

Therefore, please review our product specifications or consult the approval sheet for product specifications before ordering
